Course # 1801

BlackBerry® Unified Endpoint Management Advanced (BUEM)
Enterprise Mobility Management

ISEC7
Government Services

COURSE DESCRIPTION
During this course, you will learn how to manage your mobile devices with the BlackBerry Unified Endpoint Management (BUEM) solution. You will understand the BlackBerry architecture, be informed about the software and hardware requirements, and will have the opportunity to install and configure BUEM and BlackBerry Enterprise Mobility Server (BEMS) products.

In hands-on sessions, you will configure profiles, set IT Policies and settings for mobile devices using the following operating systems: Android, iOS, MacOS, Windows 10 and BlackBerry OS10. High availability and migration of different BlackBerry/Good platforms will also be covered. You will also get important information about licensing and support gaining a valuable insight into troubleshooting. A certified BlackBerry Authorized Training Partner will deliver the training using official BlackBerry training material and lab environment.

TARGET GROUP
This workshop is designed for IT administrators; it is recommended that you have a basic knowledge of groupware solutions. The email service used by your company should support Exchange ActiveSync (e.g., Microsoft Exchange or IBM Lotus Traveler).

REQUIREMENTS
- Personal Laptop to access the training material.
- Supported mobile device (iOS and/or Android) for the hands-on labs
