GOVERNMENT SERVICES

ISEC7 Managed Services

For Enterprise Mobility

ABOUT ISEC7 GOVERNMENT SERVICES

ISEC7 Government Services is the professional & managed services branch of ISEC7 INC in Baltimore, Maryland, and part of [ISEC7 Group](#), supporting the United States Federal Government and Department of Defense and a serving as a leading provider of mission critical digital workplace solutions for both unclassified and classified use.

Our professionals specialize in designing and supporting environments focused on enabling secure and productive end user computing. We emphasize usability while also maintaining a strong security posture around key Zero Trust principles and implementing continuous monitoring capabilities to meet NSA requirements for CSfC environments. 100% of the ISEC7 Government Services workforce holds government security clearance.

Whether your organization needs communications for field/remote workers, classified air-gapped mobile communications, or simply wants to enable an anywhere workplace for employees, we provide the services and tools to enable those capabilities.

ISEC7 MOBILE MANAGED SERVICES

The success of your global operations depends on the efficiency of your mobile IT operations. As your mobile managed services provider, ISEC7 Government Services advises on short- and long-term requirements for optimization as part of our support agreements. We are on the lookout for needed refinements to optimize your mobile strategy, business process mobilization and mobile security while we engage tactically to keep daily operations running without interruptions. As an extension of your existing team, we identify the potential risks that might interfere with your enterprise goals to reduce costs and produce an unmatched mobile user experience. **ISEC7 Mobile Managed Service** offerings are packaged, yet flexible, to map to the unique requirements of the client environment. ISEC7 Government Services' mobility experts and engineers work with your team to incorporate strategic goals and understand which resources and tools fit into the larger picture of your organization's mission.

ISEC7 Government Services' Engineering Team takes away the headache of securing and monitoring a mobile enterprise allowing clients to direct focus on more pressing matters. Essentially, ISEC7 Government Services becomes your mobile IT department for anything mobile, including mobile device management (MDMD) operations, monitoring, migrations, configurations, applications, infrastructure, network, policy – from operations to the end user.
